Outstanding experience from start to finish at Complete Dental Studio. The staff was flexible and accommodating with scheduling an appointment, my dental problems were addressed immediately and any reservations or concerns that I had in regards to my treatment were acknowledged and had positive reinforcement. My smile has never been brighter, thank you Complete Dental Studio!

I had the most awesome experience at Complete Dental Studio where I had my exam, x-rays and my ceramic braces put on today. The staff is very warm and welcoming and willing to help and Dr. Vo is very caring and knowledgeable. I am so excited for my next visit on the Dental side next month!

I can never begin to say enough how wonderful this place is, and the employees here are. Absolute PERFECTION!!!! The moment you walk in excellent customer service comes your way that speaks to the comfortability in you. The xray technician excels beyond what customers hope for. She makes you feel not only are your needs going to be met, but in an exceptional way. The employees here are the way it should be. The way it should be in any industry. I have been all over the world, and what is the paramount importance is great customer service. The employees here are the excelling definition in every way. Keep it up Complete Dental Studio....keep it up!!! All of you.

With great heart,

California Visit

Dr. Al recently extracted my daughter's wisdom teeth (all 4) must say he's the best HANDS DOWN !!! I wish I knew him when I needed mine to be extracted !! So efficiently and neatly done!! If there were more stars I would've definitely gave him the max!!

Not to mention the neat and clean office and friendly staff ;))

Will refer all my friends and family there!!

Love it here!

I went in with tooth pain from wisdom teeth and they were so helpful! They were extremely gentle throughout the entire process from the xrays to the checking.

Not going to lie but the dentist has always scared me but this office made me actually excited for my next appointment.

Was first time visit. Pretty much knew I needed an extraction so there was some trepidation. The staff was great, kind, no judgement and procedure was quick and as painless as can be. I will continue my dental regimen with these wonderful people.

I've always had a really easy time scheduling appointments here. There's hardly any wait, and the staff are all really nice and helpful. They're so enthusiastic when it comes to answering questions and they can give lots of details too, like showing me the pictures and telling me what 'this' and 'that' means and the different layers of the tooth and nerves and anatomy and whatnot. It's a cool place.

Dr Al went out of his way to get me in after losing a crown for dental implant. He was so nice, compassionate, and knowledgeable and I am very grateful. The entire staff at this office are so kind and friendly! They made a traumatic experience so much easier with their kindness. Very professionally run office. Excellent facility. Dr Al and everyone there are amazing. I will be making this my permanent dental office.

Everyone was SO kind! They made us feel welcome, encouraged us, and even helped accommodate my four year old while I was taken care of. They were very clean and made us felt safe. I have dental anxiety and they made me feel at peace! That is hard to do! My cleaning was very thorough. I will for sure be going back in six months for my next cleaning!

The office and staff are great! I went in today for the first time for their \$99 new patient special which included X-rays, exam, teeth cleaning and tooth whitening. The dentist was very thorough and his dental assistant made me feel very comfortable throughout the whole process. There were a few things they recommended for me and the office manager came in to go over my options and pricing which I thought was awesome! I will definitely be coming back and will be referring my family. If your looking for a solid dentist this place is it 🍑

Entered the building with greetings and a good morning. Already knew it was going to turn out well. The rest is simple. The dental assistant was cheerful and social. Brought my nervous system to a still system. Not a fan of docs but once I was getting worked on both doctor and assistant were a team and I was part of it. Constantly asking if I was ok and how I was doing. Make my tooth extraction comforting as best. Thank you so much!!!

From making appointments, cleanliness of facility, and courteous of staff are second to none. Very professional, personable and they show genuine concern on your issues. Julia, thank you for working with me on my time for appointments and all your reminders. Dr. Alghadban, I hate going to a dental office, your professionalism, knowledge and your genuine concern has made it easy for me, and Dr. Castillo, thank you. And to all the technicians, thank you so much.

First, I called on Tuesday and they were able to schedule me on Thursday. Anna, the receptionist was so sweet and made sure she answered all of my questions and insurance inquiries. Araceli and Dr. Castillo worked on me and I could not be happier. I decided to switch dentists due to convenience to my house and I was a bit worried but I'm so happy I made the change. Dr. Castillo listened to my concerns and talked me through everything. She has such a positive attitude and was so thorough, it truly made me feel so comfortable. Thank you all, again!

This was second visit to Complete Dental, but first dental work to be done in quite a few years and having several fillings done in one visit . . . was very nervous. Dr Ibrahim did a great job. He & the staff were all very kind and patient with me. They did all they could to make sure I was comfortable. More work to be done, but I won't be as nervous because I know what to expect.

Very impressed by the way how the staff is very effective, efficient with excellent quality of service! The place is always clean and neat, they have the great advanced technology to be more precise on your diagnostics that you require. Dentist are very professional and prepared to give you the best dental service that you need ,they spend quality of time with the patient to help with all their questions or details about you dental services. Overall ,I highly recommended their services.
